## interact

SPLT was started to make the school an inviting place for students where they have a chance to discover their passion and interests. They are given space and time to mix with their friends and teachers, strengthening relationships. The activities are done in an unstructured manner where students are free to discover and play! More importantly, to play in a meaningful way, to have agency to choose what they want to do and to be happy to come to school.

Escape Room in the library – groups worked together to outwit other groups to unlock the door against the clock!

Students enjoying pool and table tennis.

"SPLT lets us do stuff that we don't normally do" – Kieran IR3

Talent Corner was introduced in 2023 for students to showcase their talents. The many performances were self-initiated and self-directed as students stepped forward to perform.

"During SPLT, I will go to Merahan Cove to study with my friends. I feel that SPLT allows us to do what we like and want before curriculum starts and I like having it!" – Denise 3E3

"It was exciting! At first, operating it was tough so we were a bit hesitant. However, after a while, we started to have lots of fun! We discovered new functions and cool tricks the drone could do and took a few pictures with it! 10/10 experience!" – Hui Lin, 2E2

**BMSS SPLT 2023**  
- for Term 2 2023 -
